Who:

Bridges to Independence, founded in 1985, is a nonprofit whose vision is to break intergenerational cycles of poverty. Bridges carries out this vision through three core programs: operating Arlington County's largest emergency family shelter, providing a housing program, and providing a community empowerment program in the Green Valley neighborhood of Arlington County, VA. All families in these programs are offered supportive services to include workforce development, financial empowerment, youth development, referral services, and case management. This drive is for the benefit of Drew Elementary School, a community partner in the Green Valley neighborhood.
